

Health Services Research Association of Australia and New Zealand

Forum – The Pros & Cons of PROMs & PREMs – University of Sydney – 26 November 2018

This one-day forum will bring together stakeholders with experience in Patient Reported Outcome Measures (PROMs) and Patient Reported Experience Measures (PREMs) to advance the health services research agenda.

During the morning you will hear from experts in the field about the application of PROMs and PREMs in government programs, Clinical Practice, General Practice and NGOs and peak consumer bodies.

The afternoon will feature short oral presentations and provide an opportunity to learn about the latest research and leadership in the areas of PROMs and PREMs for quality assurance and benchmarking and PROMs to guide clinical care.

Keynote Speakers

Australian Commission on Safety and Quality in Healthcare (speaker to be confirmed)

Jean-Frederic Levesque – Chief Executive, NSW Agency for Clinical Innovation

Dominique Cadilhac – Head Translational Public Health and Evaluation Division, Stroke and Ageing Research, School of Clinical Sciences, Monash University

Ian Harris – Professor of Orthopaedic Surgery, UNSW Sydney

Tim Usherwood – Professor of General Practice at the University of Sydney; Honorary Professorial Fellow at the George Institute for Global Health; and Deputy Chair of Western Sydney PHN.

Shilpa Jesudason – Nephrologist, Chair, CNARTS Clinical Research Group and Clinical Director, Kidney Health Australia
