

## HSRAANZ 2015 Posters

- P1 Burden of traumatic brain injury in New Zealand: incidence, prevalence and disability-adjusted life years. *Braden Te Ao, Auckland University of Technology, New Zealand*
- P2 The cost-effectiveness of identifying and treating malnutrition in hospitals: a systematic review of the last 10 years of research. *Judi Porter, Monash University & Eastern Health, Australia*
- P3 Canada and Australia joining hands to improve access to primary health care for vulnerable populations: the Innovative Models Promoting Access-to-Care Transformation initiative. *Jeannie Haggerty, McGill University, Canada*
- P4 Working together: A collaborative approach to population based health services research with First Nations in Ontario, Canada. *Michael Green, Queen's University, Canada*
- P5 The potential effects of pausing indexation of private health insurance and Medicare rebates by the Federal government of Australia: A review of status quo debates. *Vincent Pagiwa, La Trobe, Australia*
- P6 Recruiting older people for research in diverse rural Australian communities. *Turi Berg, La Trobe University, Australia*
- P7 Multiple electronic patient records rather than one. Disciplinary differences in integrated primary health care centres. *Riki Lane, Southern Academic Primary Care Unit, Monash University, Australia*
- P8 Building an Australasian paramedicine research agenda: expanding horizons through leadership and inclusion. *Peter O'Meara, La Trobe University, Australia*
- P9 Family knowledge of patients' organ and tissue donation wishes affects consent rate. *Vanessa White, La Trobe University, Australia*
- P11 A collaborative approach to requesting supports good practice and increases consent rates: results of a national pilot of organ donation requesting models in Australia. *Virginia Lewis, La Trobe University, Australia*
- P12 NSW Patient Survey: Who is responding online, and do the results really differ? *Diane Hindmarsh, Bureau of Health Information, Australia*
- P13 How do I manage it?' Evaluating the chlamydia partner notification attitudes and practices of Australian general practitioners. *Alaina Vaisey, Melbourne School of Population and Global Health, University of Melbourne, Australia*

- P14 Reducing admissions for patients at risk of readmission: Lessons from an evaluation of a complex health intervention. *Renata Morello, Monash University, Australia*
- P15 Jumping into the deep-end: Results from a pilot impact evaluation of a community-based aquatic exercise program. *Anna Barker, Monash University, Australia*
- P17 Is Pilates a feasible form of exercise to decrease falls risk in older community-dwelling people? A pilot randomised controlled trial. *Anna Barker, Monash University, Australia*
- P18 "Just treat us right": Equitable Primary Care for Disabled People *Laura Wilkinson-Meyers, University of Auckland, New Zealand*
- P19 Gaining clinicians views to inform the next Victorian State Government cancer plan. *Esther Sadek, Cancer Council Victoria, Australia*
- P20 The impacts of public reporting of hospital performance on quality of care. *Margaret Kelaher, University of Melbourne, Australia*
- P21 Closing the Gap in the Grampians: Improving eye health services. *Uma Jatkar, University of Melbourne, Australia*
- P22 How can medical schools better fulfil their commitments to Indigenous rights to health? *Anna Fay, The University of Auckland, New Zealand*
- P23 The development and implementation of Ten Allied Health Specialist Outpatient Clinics. *Tracy Comans, Griffith University, Australia*
- P24 Institutional ethnography as a decolonizing method of inquiry for health institutions. *Melody Morton Ninomiya, St. Michael's Hospital, Canada*
- P25 Evaluating the HealthPathways programme: a collaboration between research, policy and practice. *Suzanne Robinson, Curtin University, Australia*
- P26 Measuring safety climate in acute Australian hospitals. *Anna Barker, Monash University, Australia*
- P27 Evaluation of an Oncology Multidisciplinary Team Service. *Kylie Museth, Sydney West Cancer Network / Translational Cancer Research Centre, Australia*
- P29 Developing a Model and Scale for Measurement of Healthcare Service Quality: The Patient Perspective. *Ingy Shafei, Australian Institute of Business, Australia*
- P30 What matters to people in managing their health: Exploring perspectives of those who do not discuss their musculoskeletal conditions with their GP. *Elizabeth Hoon, University of Adelaide, Australia*
- P31 Using a world Café community forum to explore preferences of seniors about seeking and receiving falls prevention health-related information. *Caroline Bulsara, University of Notre Dame Australia, Australia*
- P32 Preferences for food irradiation labelling. *Stephen Goodall, CHERE, UTS, Australia*
- P33 Beyond crystal ball gazing: estimating the future South Australian GP workforce requirements using a needs-based approach. *Caroline Laurence, University of Adelaide, Australia*
- P34 How can e- help? The potential for electronic job aids to close the mental health treatment gap in low- and middle-income countries. *Huw Jarvis, University of Melbourne, Australia*
- P35 Prostate Cancer Research: From lab bench to bedside. A prospective from the trenches. *Quoc Nguyen, The Garvan Institute of Medical Research, Australia*
- P36 A 'head-to-head' comparison of the EQ-5D-5L and AQoL-8D multi-attribute utility instruments in patients who have undergone bariatric surgery. *Julie Campbell, Menzies Institute*

*for Medical Research, Australia*

- P38 Joint prediction of chronic conditions onset: comparing multivariate probits with Multiclass Support Vector Machines. *Shima Ghassem Pour, University of Western Sydney & Capital Market CRC, Australia*
- P39 Exploring parking provisions for patients attending Victorian cancer treatment centers. *Sue Merritt, Cancer Council Victoria, Australia*
- P41 Assessing the impact of ventricular assist device implantation on hospitalisation rates in advanced heart failure using linked administrative data. *Roslyn Prichard, St Vincent's Hospital Sydney, Australia*
- P42 Application of risk-standardised outcome ratios in different performance measures. *Kim Sutherland, Bureau of Health Information, Australia*
- P43 Determinants of birth interval among women in reproductive age group in Ethiopia. *Tebikew Yeneabat, Debre Markos University, Ethiopia*
- P44 Retention of midwives in remote areas of Indonesia: a success case study from West Nusa. *Tenggara Endah Setyaningsih, Victoria University of Wellington, New Zealand*
- P45 The potential impact of a financial incentive on GP prescribing and patient use of inhaled corticosteroids. *Tracy Laba, University of Sydney, Australia*
- P46 Audit of gross decay treatment in young children under general anaesthetic. *Andrea de Silva, Dental Health Services Victoria, University of Melbourne, Australia*
- P47 Limited evidence is available to inform public oral health care services for Indigenous Australians in Victoria. *Andrea de Silva, Dental Health Services Victoria, Australia*
- P48 Clozapine access in the community: models for consumer access and supply. *Sally-Anne Knowles, Griffith University, Australia*
- P50 Differences between administrative data and patient-reported identification of outpatient consultation: an example from the 2014 NSW Outpatient Survey. *Clare Aitken, Bureau of Health Information, Australia*
- P51 Human Papillomavirus (HPV) Self-Sample Testing: Interventions with/for Northern Canadian Women. *Virginia L. Russell, UNBC, Canada*
- P52 Discharging older patients from the Emergency Department effectively: systematic review and meta-analysis. *Judy Lowthian, Monash University, Australia*
- P54 Can a nursing-centric primary healthcare system deliver on health outcomes in rural and remote communities? *Joseé Lavoie, University of Manitoba, Canada*
- P55 Organizing Hospital Infrastructures to Identify and Address Disparities in Quality of Care. *Kristina Weeks, Johns Hopkins School of Medicine, United States*
- P56 Tasmanian General Practice's Satisfaction with the Tasmanian General Practice After-Hours Incentive Funding Mechanism 2014-15. *Amanda Neil, Menzies Institute for Medical Research, University of Tasmania, Australia*
- P57 The impact of the New Zealand Transient Ischaemic Attack (TIA) Guidelines on clinical services and practice in the central Wellington region. *Neonila Panko, Victoria University of Wellington, Health Services Research Centre, New Zealand*
- P58 Using data to inform the delivery of care: patients' assessments of care over an extended period. *Angela Todd, The Kolling Institute, University of Sydney, Australia*

- P59 Prevalence of antenatal risk factors affecting child development in Australian women. *Sharon Goldfield, The University of Melbourne , Australia*
- P60 A population analysis of self-management and health related quality of life for chronic musculoskeletal conditions. *Elizabeth Hoon, University of Adelaide, Australia*
- P61 A cultural competence organisational review for community health services. *Mandy Truong, Melbourne School of Population and Global Health, University of Melbourne, Australia*
- P62 Antibiotic Prescribing in a rural hospital Emergency Department. *Girish Swaminathan, Bega District Hospital, Australia*
- P63 Identifying women for a nurse home visiting service: the feasibility and utility of antenatal risk factor screening. *Sharon Goldfeld, Murdoch Children's Research Institute, Australia*
- P65 Workplace culture and health care reform: Front line workers carrying the weight of policy shifts. *Kirsten Lovelock, University of Otago, New Zealand*
